

GARDEN KIDS WELL-CHILD POLICY

To minimize the chance of spreading illness, children who show signs of sickness will not be accepted into the Garden Kids environment. We require that children be fever-free for 24 hours before entering Garden Kids. This is for the health and protection of all children and those serving in the ministry. You are encouraged to bring your child back to us as soon as he or she is well.

Upon recommendation of the American Academy of Pediatrics, a child should not be taken from the home with any of the following conditions:

- Fever
- Vomiting
- Diarrhea (even if associated with teething or medication)
- Any symptoms of childhood diseases such as scarlet fever, German measles, mumps, chicken pox, strep throat, flu, or any other contagious or infectious disease
- Common cold from onset through one week
- Sore throat
- Croup
- Junky or barky cough, phlegm-filled or productive cough
- Any contagious or unexplained rash
- Pink eye or other eye infections
- Cloudy or green runny noses or persistent cough
- Any communicable disease
